**EXAMINER'S AMENDMENT
AND
REASONS FOR ALLOWANCE**

1. An examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable, an amendment may be filed as provided by 37 C.F.R. 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

Authorization for the examiner's amendment was given in a telephone interview with Mr. Douglas Holtz, reg. no. 33902, on November 20, 2005.

2. In the claims:
 - (i) Please cancel claims 2 and 7.
 - (ii) In claim 5, line 36: insert after "electronic mail" with --; and wherein the registration specification information corresponds to a specified character string included in a subject of the electronic mail --.
 - (iii) In claim 12, line 41: insert after "electronic mail" with --; and wherein the registration specification information corresponds to a specified character string included in a subject of the electronic mail --.
3. The following is an examiner's statement of reasons for allowance:

Art Unit: 2154

The prior art of record does not teach or suggest individually or in combination a method of automatically forming mailing address directory in an image communication apparatus (such as a fax machine), wherein an electronic mail (i.e., an instruction mail) contains specified registration information and a separate electronic mail. The separate electronic mail contains header information such as subject and sent fields, the latter indicating a time of creating the separate electronic mail. When the specified registration information extracted from the instruction mail corresponds to a specified character string included in the subject field of the separate electronic mail, it indicates that the incoming electronic mail's address is to be registered in the address directory. The system then generates an identifier by combining the character strings included in the subject and sent fields. The identifier is for uniquely identifying each address record so that no identical addresses are present in the address directory.

4. Pursuant to MPEP 606.01, the title has been changed to read:

-- AUTOMATICALLY CREATING MAILING ADDRESS DIRECTORY IN AN
IMAGE COMMUNICATION APPARATUS --.
